'STRAIGHT' BASSON WELCOMED

Daily News Correspondent

CAUX (Switzerland), Monday.
MR JAPIE BASSON, the United Party MP, was welcomed at a full session of the Moral Rearmament World Assembly here by a councillor of the newly-formed Ciskei Bantustan.

Miss Eginah Mazazi, the councillor, told Mr Basson that it was at the Moral Rearmament World Assembly — a forum attended by people from many nations — that an answer to South Africa's problems could be found.

"We are so glad you have crossed over the sea to join us and to try to work out the jigsaw puzzle of our country," she said.

Miss Mzazi, for six years president of the National Council of African Women, thanked Mr Basson for his "independence and straightness."

"With men who are independent of thought we will find the answer in this home, this fountain for the world."
