

# 'Africa The Mother Of Tomorrow's World'

LONDON, August 22.

**A** LEADING member of the Moral Rearmament movement told Africans in London today that "this is Africa's hour—what Africa decided to live today the world may decide to live tomorrow."

Mr. Peter Howard, who was addressing 100 Africans at a Moral Rearmament assembly, said: "Africa is going to be the mother of tomorrow's world . . .

"Africa needs to show the world that it is not the colour of a man's skin but the character in a man's heart that counts."

He told his audience, which included the brother of the Prime Minister of Kenya: "Jomo Kenyatta has patterned a new course for a continent and for humanity. Heaven help the White men still left in Africa if they do not comprehend the spirit of Mr. Kenyatta's recent declaration and respond wholeheartedly to its challenge. I am for a revolution big enough to lift all men beyond the need of bloodshed into the realm of partnership and of peace.

"If that could come to pass we might see an Africa where everybody cares enough and everybody shares enough so everybody has enough. We might see an African freedom so generous and true that Mr. K. of Moscow and Mr. K. of Washington will say: 'Both of us need what Mr. K. has brought to birth in the continent of Africa.'"
